MEMORANDUM FOR: Director of Central Intelligence

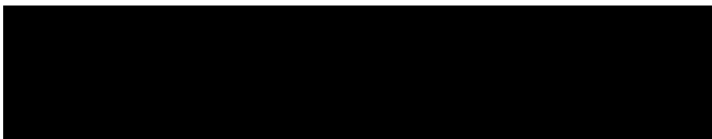

30 June 1958

SUBJECT : Inspector General's Survey of TSS and DD/P's
Comments

att 1. In April 1957 the Inspector General completed and submitted a report of his survey of the Technical Services Staff. In June 1957 the Deputy Director (Plans) submitted very extensive comments on the IG's survey and on each of his 160 specific recommendations. Sometime during the autumn of 1957, General Cabell himself prepared, or had prepared, a memorandum for your signature approving the IG's recommendations as modified by the DD/P's comments and non-concurrences and subject to some ten specific comments contained in the memorandum. About the time my responsibilities were broadened in the direction of research and development this whole mass of papers was passed to me for further study. I have now at long last completed a review of the IG's specific recommendations and of the DD/P's comments thereon. I have now drafted a new memorandum for your signature to replace the draft prepared by General Cabell. My draft of the memorandum is somewhat more detailed and specific than General Cabell's but it is with only minor exceptions in full agreement with his.

2. Although it would be possible to submit this piece of paper to the DD/P and the IG before recommending that you sign it, I would urge you to act on it forthwith so as to avoid dragging out this matter any further. So far as I am aware, no momentous issues are at stake and I believe it would be helpful to all concerned to tidy up this piece of business.
